**Review Title**: Very simple to use and connects me with the appropriate people in the chain of approval quickly

**Pros**: - Simplicity - Connects the PO chain quickly and efficiently - Multiple budgets can be controlled and monitored from one place

**Cons**: - Saved me time
- Improved the tracking of orders and spending

**Overall Quality**: ★★★★★
**Ease of Use**: ★★★★★
**Customer Support**: ★★★★★

**Review Title**: An outstanding improvement to an otherwise frustrating process

**Pros**: Most importantly, the software allows me to see instantly how much is left in each budget before approving new expenses. Also, eliminates the need to keep photocopies of receipts and hardcopies documents in a personal file. Reimbursement time for staff is much faster with far fewer errors.

**Cons**: For the moment, I am just enjoying the fact that this is an improvement over what was. I have not been able to give much thought to what it could be.

Review Title: Our organization uses this software to track and approve financial transactions.

Pros: I like the ease of using the software. Everything is so streamlined and self explanatory. I like that I don't have to go through too many steps to do what I have to do.

Cons: I really don’t have complaints. Everything that I do in the software is very easy for me to get through.

Comments (Benefits): This software makes office life so much easier!
DC Scholars Public Charter School

DC Scholars Public Charter School prepares students to attend and succeed academically in high school and college, and DC Scholars provides students with a foundation of life skills required to become productive members of their communities.

Our schools further reinforce high expectations by teaching students ownership and accountability for their actions through our **PATH Values:**

Professional/Prepared, Attentive, Thoughtful, and Hardworking. Both of our schools have a character education program that is centered on the PATH values. Students study these values throughout the year in beginning of year and mid-year student orientations as well as regular classroom and community (grade-level) meetings. Teachers use these values to build intrinsic motivation and accountability for learning, while also tracking these values using school based practices.

ProcurementExpress.com is so easy to use, and has increased accountability in our AP process

**Pros**
The software is amazingly easy to use, and I can approve purchase orders that have been submitted without even opening the application on my computer - just by clicking a link in an email.

**Cons**
Purchase orders that need to be cancelled can still be approved, and can’t be deleted by team members.
Thomas’s London Day Schools

The kindergarten and the four preparatory schools are autonomous in terms of the day-to-day management by the heads and leadership teams. However, there is a shared philosophy and a commitment to the highest standards and to the extraordinary wealth of opportunity that allows children to discover and develop the best of themselves.

We are a Christian school, open to children of all faiths.

No amount of printed information or even pictures can truly convey to you what is at the heart of our busy and exciting school.

Also to be noted that Prince William attends this school.

**Review Title**: Best Online Purchase Order System Period!

**Pros**: Not having to fill out paper forms anymore

**Cons**: The orange colour used in the logo, I just prefer green.

**Comments (Benefits)**: What can I say, the product speaks for itself. The product can be modified to how you wish using the support. It is very very quick support and you never have to ask twice. The people make this product exceptional!!!
The Arkansas School for the Deaf (ASD) has a strong legacy: it is the only school for students who are deaf or hard of hearing in the state of Arkansas, and serves as the center for Deaf Education throughout the state, the oldest school for the deaf west of the Mississippi River. ASD follows a state-mandated curriculum and provides individualized education to students from throughout Arkansas, many of whom live on campus during the week in dormitories. ASD serves students from preschool through high school and beyond through a comprehensive post-secondary program focusing on career and college readiness. The school also provides support for deaf and hard of hearing students in mainstream programs throughout the state and serves families of deaf children from birth until school age through a home-visitation program.

Review Title: Running like smooth Engine
Pros: Easy to keep track all the paperwork!!!
Cons: I love it all, worth our money to get this software.
Comments (Benefits): When I work here, the paperwork always get lost and some people will claim that they never saw that paperwork before. So easy to lose the track for each paperwork and we got the ProcurementExpress.com, we start with budget paperwork...wow...we can see who haven’t read it or haven’t approved it. It was easy to prompt specific person that haven’t doing their job and paperwork was successful. We asked ProcurementExpress.com to add different paperwork in the system, they did that so teachers can keep track the paperwork from health dept, food service dept, transport dept, and school/dorm. It was running like smooth engine between various department which do help us know where the paperwork. Recommend you get this for sure and no more old song “I don’t know” or “I never got that paperwork”.

Review Title: GREAT and WORTH!!!
Pros: This will eliminate the confuse and easy to find out who haven’t seen the purchase order and who already approve it. Easy to find out.
Cons: None
Comments (Benefits): We have different department and our old system via paperwork tend to get lost and miscommunication which cause some chaos. This software is wonderful and easy to track who haven’t approve or not and also this system will automatic forward to next person when it approval and make each department easy to work together. This is great software!!

Review Title: A revolutionary change in the way we do business.

Pros: Tracking spending across multiple budgets at a glance, as well as being able to add notes and documents onto each spend so there’s an accurate reflection of changing business needs.

Cons: It would be useful to be able to submit purchase orders proportionally under different budgets, as occasionally large invoices need to be split into multiple areas.

Review Title: Excellent customer service, staff were very helpful, efficient and quick to respond.

Pros: Ease of use, very streamlined, simple to find PO numbers and a quick system. Straight forward to learn how to use.

Cons: 

Comments (Benefits): Great way to document everything. Sometimes have an error message appear but have worked out how to overcome this.
St Luke's Grammar School

Review Title: Perfect product fit for our needs and very responsive vendor

Pros

Cons

Comments (Benefits): I received a call from the company within minutes of signing up for the trial a record in my 20+ year career. The software does what it says on the box and is very user friendly, couldn't recommend highly enough if you are looking for a simple PO solution to replace paper based POs.

Review Title: Been using a system like this for many years. being that this one is new to us, this by far easiest.

Pros: Very easy to maneuver around the web page. Customer support literally pops up as soon as you need them.

Cons: There has to be a legend under the each tab on the Budget, to know exactly what it is your purchasing under what icon.

Comments (Benefits): Everything. Checks and balances on point

Review Title: Great software

Pros: It's quick and easy enough to train others on how to use this software. We no longer have to deal lost receipts or PO numbers.

Cons: The least thing I like about the software is that we are limited to the access of users. But I am aware we can add more users for an additional price.

Comments (Benefits): This software has helped up stay within our monthly budget.

**Review Title**: Excellent internal control and record system.

**Pros**: Clear, concise record-keeping and data is shared with users to provide for accurate shared information system.

**Cons**: I would prefer that only those PO's awaiting my approval were on my dashboard, it is too time-consuming to sort through what is awaiting my approval. Also always reverts to Page 1 so I have to click through to where I left off.

**Comments (Benefits)**: Excellent internal controls and accountability.
